Assistant Principal

November 16, 2018

Dear parents/guardians,

Last evening, during the wind and rain that our area experienced, we had a neighborhood tree come down on a portion of the Agriculture building. The tree was sizable and there is some damage to the building.

While the area is cleaned up and the building is being repaired we will be holding all of Mrs. Leone's Ag classes inside the building. Mrs. Leone moved most of her equipment and supplies into the building today. She will be setting up a temporary classroom in the building until we are able to return outside. We expect very little to no disruption to her curriculum and programs.

The safety of our students and staff is always our primary concern and we are fortunate this occurred overnight while no one was on campus. We are fortunate to be able to maintain our curriculum and Ag/FFA program and we look forward to returning to that classroom space soon.

If you have any questions please do not hesitate to contact me at the school, (302) 337-8289. Thank you for your continued support.

Sincerely,

Tina Morroni

Woodbridge Middle School Principal
